

5/12/19

My name is Rebecca Betancourt and I am currently housed at Rappahannock Regional jail. I have no legal advice, assistants or support. Everything I have said in these complaints are true. All I am asking for is help, protection, my name to be cleared. My two children and I am suffering. These agents and police have not protected us, but ruined our lives. They have taken my kids, freedom, health, and my mind. I now have post traumatic stress disorder. Anything you can do to help us and get us to safety would be a relief. All of this could of been prevented if someone would have intervened. I am in desprate need of a facility transfer.

Respectfully,
Rebecca
Betancourt

Criminal Complaint Form/improper investigation.

Business: Local FBI

October 18' Agent Bertan who use to work for Rappahannock Regional Jail. Agent Charde Hall who I know from mutual friends both conflicts of interest open an illegal investigation. Denied me obtaining a lawyer, worked with the jail to change and give me varies of unknown medication. Which they both admitted. Knowledge of my children being molested and took part in molesting them and or was present when this took place. Blocked all law enforcement to helping my children. Harrassed me nightly, plotted to kill me to save their reputation. Had a couple of agents/marshalls from there office to try and questioned under the influence of this unknown medication. Agents would not leave alone unless I said I was guilty of crimes. Threaten my kids and myself.

Criminal Complaint Form

Business: Roger Harris

Sheriff of Spotsylvania County

September 18' in Fredericksburg Circuit Court Sheriff Roger Harris said he was going to shoot me in the head. I was complaining about the mental health staff at Rappahannock Regional Jail. I mentioned suing the jail and his answer was to shoot me in the head because that money was part of his retirement money. Mr. Harris had full knowledge about my children and there unsafe living environment. As well as knowledge of the FBI/Rappahannock Regional Jail messing with my medication.

Criminal Complaint

Business: Spotsylvania Sheriffs Department.

Since Dec 18' I called Spotsylvania for help from these Agents and for my children and never once did they answer the phone. Correctional Officers who happen to be police for the department Did nothing to assist me nor my children. Were fully aware of the situation and chose to ignore me.

Criminal Complaint

Business: Stafford Sheriff's Office - Sheriff Decature.

Mr. Decature is fully aware of the situation with my children being molested. The medical malpractice and harassment I have been subjected to. Called this office, filled out request forms and wrote letters. I have seen him multiple times his answer was the same as everyone's. There was nothing they could do because the case belonged to the FBI.

Business: Stafford Sheriff's Office
Detective B.W. Morris

I met with Mr. Morris for the first time April, 12 2019 Meeting him I made statements in regards to a sexual assault and physical assault. Also asked Detective Morris to give me information in regards to a wellness check on my two children. A week later Morris came back to tell me the information was unfound concerning the sexual and physical assault. My children were fine. As I waited for an escort he was outside the room standing with what sounded like agent Charde Hall/Cirella. Detective Morris went back on everything he said. He saw the video of both assaults but there was nothing he could do. He apologized.

Business: Free lance Star
Kathy Jett

In September 18' Kathy Jett wrote an article maliciously and falsly about me being indicted on murder charges. I was never charged nor did I murder anyone. This slanderous article has caused me mental anguish.

Criminal Complaint Form
Business: Rappahannock Regional Jail

April, 30 2019 I was on suicide watch Sgt Risner and officer Pleasants came to do a routine clean up. I was visably dizzy and unsteady, having trouble standing. Asked for assistants. Fainted and fell back on my foot broke three toes and Fractured my right foot. I have to get a major surgery. Three screws. A medical code was never called and I begged for assistants I didn't get till I walked out of the cell with my broken foot.

Criminal Complaint Form/Malicious Prosecutor

Full Name: Rebecca Betancourt

Business: Stafford County Sheriff's Office.

I have called Stafford Sheriff's Office numerous times from Dec 18-May 19' not once have I had anyone answer. ^{the phone} Dec 18' I put in request forms in regards to a Wellness check for my two children. A deputy came from the office to question me and told me my request sent to the city of Fredericksburg. I spoke to another Deputy from the Sheriff's Office. I made statements in regards to sexual and physical assault that happen to me inside the jail. Again asked for another Wellness check for my children. A week later the Deputy came back to children were fine and my accusations were unfound. This is false I know that my children are unsafe and I feel as if my concerns were dismissed. My children's safety as well as mine is my concern. They nelegected there duty and never once came to my aid nor my childrens. This has been going on for to long and I have got no where. I have taken all the steps, have all Original documents for my request to speak to law enforcement.

Criminal Complaint Form/Medical Malpractice

Business/Nurse Practitioner: Amanda Fisher

Rappahannock Area Community Service Board

November, 1 2018 Amanda Fisher the nurse practitioner from Rappahannock Area Community Service Board in Fredericksburg prescribed me medication. 300 miligrams of Quetiapine added in with Oxcarbazepine 300 and Prazosin 2mg. A mixture of this medication lead to seizures which I have never had before. I couldn't walk and even lost consciousness woke up with inmates giving me CPR. 911 was called on almost a nightly basis, I refused to go to the hospital. Have Original Copies of my concerns with the medication-medical request forms. Many go unanswered as of now I have an open case the Rappahannock Area Community Service Board. I believe Mrs. Fisher was or "teamed" up with the local FBI in a plot to try and kill me.

Criminal Complaint Form: Medical Malpractice

Business/Nurse "Medcall" - Alterman

Rappahannock Regional Jail

April 30 2019 I was on suicide watch nurse Alterman gave me my medication. Policy is all medication is crushed when I questioned her because it looked like a lot of powder, she told me it was correct. About six hours later I woke up feeling dizzy and was unsteady on my feet. I actually fainted fell back on my foot broke three toes and sprained the top of my foot. My blood pressure was so low I barely had a pulse. When I asked Nurse Alterman what medication she gave me she admitted it was intentionally wrong. I now have to get three screws in my right foot and walk with a walker.

Criminal Complaint: Medical Malpractice

Business/Nurse Miller

Rappahannock Regional Jail

May 5 2019 I was on suicide watch. Nurse Miller gave me the wrong medication and admitted to doing so after I took the medication. Nurse gave me a blood pressure pill her response to a correctional officer was "what is she going to do no one is going to help her." I did not say anything and prayed my blood pressure was fine through the night. Even asked her before taking the medication.

Business / Nurse Practitioner - Melody Cotter

Rappahannock Area Community Service Board

I have spoke with Melody Cotter the nurse practitioner from Rappahannock Area Community Service Board. Mrs. Cotter has prescribe me different medications throughout my stay at Rappahannock Regional Jail. I feel as if she dismissed my concerns and not only prescribed me a deadly mixture of medication. When I explained the reaction of the medication she lied and told me I was having lucid dreams. Dismissed all my concerns and covered for the jail. Mrs. Cotter knew the intentions of the jail. Laughed at my issues and used her licence to hurt me.
